Custom Design Center

We offer complete custom design services for bags and tissue paper. We can craft a bag to almost any imagination. From euro totes, non-woven, paper, and poly bags, we've done it all! Follow these steps to begin:

1) Determine the Bag Size and Features

Dimensions and features the client is looking for is imperative. We can create a bag in any size but knowing the intended use will make this process easier. Determine if your client needs any additional elements including closures, pockets, special handles, piping, etc.

2) Choose the Materials

We can build a bag using non-woven polypropylene, paper, or plastic based upon your clients needs and budget. We are also able to accommodate many different custom handles from twisted paper to ropes, ribbons, and plastic.

3) Prepare the Artwork

The artwork for the bag is by far the most important and it what will make the most impact. We accept art files in the forms of PDF, EPS, and AI Files. All files must be vector artwork. Please consult our general art guidelines [page 96-97] for more details.

Order Information

Purchase Orders - All orders must be submitted in writing (via email at promopsiorders@onlinepsi.com) to ensure accuracy and are subject to approval. Please have the PO number in the subject line & attach artwork. (Artwork guidelines on [page 96-97](#)).

Please include as much information as possible, as orders can be delayed due to missing information.

Repeat orders need to reference a previous PO# and/or plate folder number. To ensure accuracy please also send artwork if multiple images on file.

Due to normal wear and tear of plates, hot stamp and flexo-ink plates older than 3 years may need to be repurchased by the customer.

All flexo-ink & hot stamp orders that have not been reordered in 3 years will be considered new orders. They will require artwork to be sent to create new proofs and new plates or screens.

Different sizes of bags using the same plate combine for print and hot stamp lot charges.

Please be advised that case breaking is not available on any plain or post printed orders.

Promo PSI will acknowledge every purchase order received in writing prior to production. Please review your acknowledgement carefully and contact us immediately if you see any discrepancies. (If changes need to be made, please refer to the "Cancellations and Changes" section below.)

Pricing in the catalog is subject to change at the discretion of Promo PSI and any pricing changes will be sent via email.

Additional Fees - Metallic ink charge is \$80.00 [a] per color / per order for Flexo orders.

Foil/Ink Change Fee is \$40.00 [a] per color / per order.

Changes and Cancellations - All changes to orders or cancellations of orders, must be in writing via email and must be acknowledged by the customer service team. Changes or cancellations after acknowledgement are subject to all incurred costs including artwork, set up, and plate charges.

Any changes made to an order may delay production & shipping and can only be accepted if the order has not begun production.

Post-Dated Orders - Post-dated orders are scheduled to ship on the specified future date of your choosing. These orders will begin production in time for that designated shipping date.

However, if you or your customer needs the order earlier than planned, please notify us at least 7-10 business days prior to the newly requested shipping date to allow us to adjust production.

Requests made fewer than 7 days before the desired shipping date may require a rush production fee to meet the updated timeline. Without sufficient lead time, we may not be able to accommodate expedited production without these additional fees.

Returns - Only plain non-imprinted bags may be returned for credit. Promo PSI must be notified and a return authorization number assigned within 30 days of the shipment date. A 20% restocking fee will be applied as well as all original freight and return freight charges incurred. We cannot issue a credit until the product has been returned to our warehouse in the original packaging & it must be in a resellable state. Promo PSI may ask for samples to be returned for inspection prior to authorization.

Inventory Availability - All orders are subject to acceptance based on inventory availability at the time. Promo PSI cannot be held responsible for any inability to ship orders due to stock shortages.

Orders that can be partially shipped will have the remaining amount placed on back-order and will not be cancelled until we receive a cancellation request in writing. Once product has been replenished, we will fulfill any back-ordered orders.

Payment & Credit Terms - New customers must complete a New Account Set Up Form and provide Resale Certificates (Uniform sales & tax form) for each state you are set up to resell our products.

New & existing customers wanting to establish credit terms (Net 30 days) must complete a Credit Application and provide credit references. Please allow 1-3 weeks for the credit application process.

All orders will not be processed prior to credit term approval unless a pre-payment has been received. Credit card payments are accepted: Visa, Master Card, or American Express.

Late Payment Fee - A charge of 1.5% per month will be added to any outstanding balances that have not been paid within the payment terms.

10% over run / under run is acceptable in our industry. All overruns are subject to invoicing.

Artwork & Proofs

Art Submission - All artwork, copy, logo size, and bag layout are subject to PSI approval.

We require vector artwork for all orders. Acceptable file extensions: .ai, .eps, and .pdf. Content inside the file must be vector graphics, all fonts need to be converted to outlines, and any stokes must be expanded.

Other file types or images may be acceptable if the file size is large enough, but will be subject to pre-approval by the art department.

We recommend that you send us a copy of your artwork prior to submitting an order so that we can determine if we can print the artwork on the product that you would like.

Artwork sent via email must reference the purchase order number in the subject line. Please provide a PDF copy with your order so that we may verify the integrity of your electronic submission. On orders with multiple colors, please indicate color breaks on your PDF copy.

Promo PSI will not store digital artwork for longer than a 1 year period.

We will not add websites, addresses, or make major changes. If any changes besides resizing is wanted, you must send a revised art file to the art department.

Artwork recreation, or artwork that takes longer than 15 minutes to clean up, will incur art charges of \$110.00 [a] per quarter hour & will be added to the purchase order.

Trademarks, Copyright, & Use of Logos - All artwork & logos with or without trademarks, copyrights, and registration marks are shown in this catalog to demonstrate our post-printing capabilities and are not for sale. Any imprints in this catalog are for illustrative purposes only.

By placing an order with Promo PSI, distributors represent and warrant the authority to order, purchase, and distribute merchandise containing any logos, trademarks, registration marks etc., identified in the order.

Proofs - PDF versions of proofs will be sent to you via email. Approved proofs must be signed and sent back to: art@onlinepsi.com for the lead time to begin. Placement of the artwork is approximate.

Promo PSI will proof up to 2 proofs per order; for more than 2 proofs there will be a charge of \$70.00 [a] per proof.

Artwork - Ink or foil that is close to (or similar to) the same color of the bag being used, may not be visible.

Large areas of heavy coverage can appear patchy and uneven due to the crease from the gusset flap.

Text must be a minimum font size of 9 points to print legibly. (Some fonts may need to be bigger, depending on the areas inside letters, or if letters are too thin. Smaller sizes may have fill in, not print, or be illegible.)

Some artwork may need a white space placed in-between different pieces, to help with readability of the artwork.

Reversed out areas, small details, and tiny type may experience fill in.

Thin lines & text may have to be adjusted and made thicker for visibility on the actual plate itself.

Registration marks and Trademarks may need to be adjusted to be visible, or to not have fill in.

Gradients and/or areas at less than 100% opacity (screens) will print as dots, not as a lighter color. The DPI (dots per inch) frequency will depend on the artwork. Any small details will not be visible as dots, and text may not be legible.

Placement - Unless otherwise stated, the logo will be placed center best on the product and sized to fit in the Max Imprint Area.

Our production team will center the art as much as possible, but logos may be shifted slightly to help alleviate issues with the crease, fold, handle area, or sizing of the product.

Two-sided printing may be affected by the crease and fold of the bags, so the positioning may not be placed exactly center best on one or both sides.

As much as 1/8th of an inch to 3/8th of an inch of shift in the artwork position is possible due to manual feeding.

Movement may occur on Multi-color orders. Registration tolerance is 1/8th for hot stamp & 3/8th for flexo-ink printing.

Minimum placement on most products for hot stamp is 1" from the sides or bottom edge, and 0.5" below the handle area.

Some logos may look off-center due to Registration Mark and Trademarks. We will need to know before printing if placement needs to be based off the Logo itself and not the full image.

Post-Printing Processes

Flexo-Ink Print - White ink, metallic inks, and light-colored inks always appear dull in color and may not be very visible or legible on any kraft or tinted paper shoppers.

211 White Ink on Kraft Paper Shopper

200 Metallic Gold (PMS 871) Ink on Tinted Black Paper Shopper

277 Sunflower (PMS 121 U) Ink on Kraft Paper Shopper

On kraft and tinted color bags, most ink colors will appear darker and may not look exactly like the PMS color requested.

Multi-color artwork may be adjusted to add space in-between colors to avoid inks mixing during printing.

Inks are always laid lightest color first to darkest color last.

4 colors of Flexo-Ink on White Paper Shopper

4 colors of Flexo-Ink on Kraft Paper Shopper

Hot Stamp - Foil can have an uneven edge due to the product material itself. Due to the different textures of bag materials, some foils may not adhere completely and may easily flake off if intentionally scratched.

Thin lines or points may break off from the plate or even damage the product.

Foil colors similar to, or the same color as the product, may not be visible or legible.

113 Matte Navy foil on 8494MNV

119 Matte Black foil on 0810BLT-M

Matte foils have a higher chance for fill-in due to the higher temperature needed for adherence. Metallic foils are recommended for artwork that has smaller details, thin lines, or small text.

2-sided orders have more potential to crease the foil during the printing process. A smaller plate may need to be made to avoid the crease depending on the artwork.
